

FOR THE LITTLE ONES

When you think about filling the stockings of the little ones, remember we have the Stockings, as well as a lot of useful and enjoyable presents to fill them.

Don't wait until the last moment, but come as early as you can.

Now is the time to dive into the old stocking—and prepare to fill someone else's stocking. From Silk Socks to Silk Hats—here's everything for men's adornment—fine as silk.

NOTES.—There are certain articles of Men's Wear that misses or mothers are apt to buy for the men of the family. They are better judges of Handkerchiefs, Hose, Underwear, Night Shirts, etc. In these special lines we've secured a special stock, and we issue a special invitation to misses and mothers to come here. Selections made for the holidays exchanged cheerfully after Christmas if not what is wanted.

BARRE DAILY TIMES

SATURDAY, DEC. 22, 1906.

The mother of Chester Gillette is going out on the road to lecture on the subject "Chester Gillette, guilty or not guilty; a mother's plea for her son." Spare us!

We trust that the nine hours and four minutes of daylight on this, the shortest day of the year, were well utilized. It gave just about enough time to get in an eight-hour day.

The negroes which has characterized the trial and five years' imprisonment of Albert T. Patrick in New York has not deserted him. Having been promised life, he now clamors for liberty. And that after being convicted of murder!

The negroes continue to be a dark cloud on President Roosevelt's horizon, with here and there an exception. One of the most notable exceptions is William H. Lewis, the former Harvard football player, who is now one of the leading lawyers of Boston.

The town of Newport is after the laurels of Brattleboro as the boss office-holding community in the state. With a lieutenant governor, two state commissioners, a state trustee, the governor's executive clerk, and what other offices we do not recall now, it has made a good start.

A press despatch from Montpelier says that bank deposits were large on

Thursday and Friday of this week. The thirty people were only putting away a goodly portion of that \$77,000 which the state paid for the ten weeks' session and which found its way into the hands of Montpelier people.

In reply to the demand for a proper method for heating passenger cars on the end of freight trains, the Montpelier Journal suggests "electric heaters, gas heaters and hot water heaters." It really desires of removing the possibility of another wreck like that at Vergennes a few weeks ago, the railroads ought to be able to pick some method out of the above suggestion.

The Times is in receipt of a communication from the press agent of the Jamestown exposition, in which it is stated that the Vermont exhibit at Hampton Roads next summer will cost \$10,000, and furthermore that "the building is to be of granite and marble from the state, but further than that the details of the structure have not been arranged." So the Vermont building is to be built of granite and marble and to cost \$10,000 in its entirety! Those who know the value of these building materials and the cost of transporting them to Virginia will wonder just how much of the structure will be of granite and marble, or rather how many pieces of stock from Vermont will ever find their way into the construction. In view of the amount of money appropriated by the state, the pieces will not be many, that is certain, unless marble and granite manufacturers contribute for the sake of advertising their products.
